<sup>\*</sup>The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

Samsung HVAC maintains a policy of ongoing development, specifications are subject to change without notice. Refer to www.AHRIdirectory.org for current reference numbers.

# **General Information**

- The indoor unit shall feature WindFree™\* mode. In cooling mode, as room temperature nears set temperature, the unit will close its louver and will disperse air into the space through thousands of micro-holes on the front of the indoor unit preventing cold air drafts on occupants.
- •The indoor unit shall have Wi-Fi capability as standard
- •The indoor unit shall be powerd by the outdoor unit

# Construction

- •Indoor unit chassis shall be UL94 V0 with a galvanized steel mounting bracket
- •The indoor unit shall have easy-access to wire, pipe, and drain connections via access panel on the bottom of the unit for simple installation and service

### **Heat Exchanger**

• The heat exchangers shall be mechanically bonded fin to copper tube

#### Indoor Fan

- The indoor fan shall be a single, antibacterial cross-flow type
- · Three fan speed settings and auto setting
- Automatic (motorized) vertical swing (up/down) and horizontal swing (left/right) louvers

# Controls

- The system shall have a built in Wi-Fi adapter as standard to allow control and monitoring using the Samsung SmartThings app (Android, iOS)
- Dual set temperature support when connected to MWR-WG00UN Advanced Wired Controller and supported central control options.
- The indoor unit shall have a simple connection for overflow detection
- devices or any other normally closed contact for simple unit shutdown
   The indoor unit shall ship with a wireless controller, holder, and batteries
- Wired controller options available
- Interconnect control wire between outdoor and indoor unit shall be 16AWG X 2

# Convenienc

- System energy consumption can be viewed using the Samsung SmartThings mobile app (not revenue grade, for reference only)
- Auto Clean Function
- •7-segment digital display on front of unit to display temperature and unit status
- Auto changeover
- Good sleep modeQuiet mode
- Dry mode
- Simple ON/OFF time function Using the wireless controller specify the ON and/or OFF times
