ACHIEVER PLUS SERIES

R802T

80% AFUE¹

Greater Comfort & Performance

A two-stage motor keeps you comfortable and increases the performance of your furnace.

Reliability & Durability

Quality is in the details of the Ruud R802T *Achiever Plus* Series Gas Furnace. It's engineered with the exclusive PlusOne® Ignition System—the most reliable system available.

Peace of Mind

Designed with patented features to ensure year-round reliability. And for added peace of mind, our gas furnace is backed by a 10-year conditional parts warranty and a limited lifetime heat exchanger warranty.²

RELY ON RUUD.™

Ruud Philosophy of Reliability

Designed to keep your family comfortable for years to come, Ruud® products are developed using the 360°+1 design philosophy. The Ruud brand strives to deliver the very best homeowner experience by evaluating every detail of the product from every angle. That's 360°+1. And that's why you can rely on Ruud heating and cooling solutions to bring you and your family years of comfort.

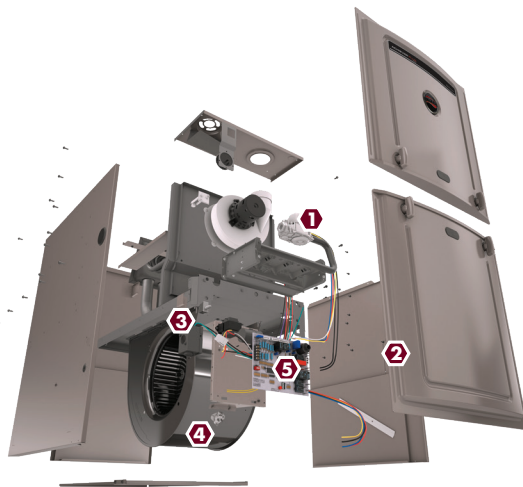

Designed for Comfort that Lasts

Industry-first patented features and 360°+1 engineering make the Ruud R802T *Achiever Plus*® Series Gas Furnace a smart option. From top to bottom, inside and out, and every angle in between, we've thought of everything to bring you efficient and reliable indoor comfort.

Save Energy & Money

The two-stage constant torque ECM motor maintains efficiency across a range of operating speeds, using less electrical energy than a standard PSC motor. The two-stage heating design primarily operates on low-speed, only temporarily switching to high during peak cold-weather conditions. An energy-efficient motor also means a lower monthly utility bill. And this model may qualify for local and / or utility rebates, which can mean even more savings.

Reliability

Our *Achiever Plus* Series Gas Furnace comes standard with the Ruud-exclusive **1 PlusOne**® Ignition System. This proven Direct Spark Ignition (DSI) is one of the most reliable ignition systems available today. Used **exclusively by Ruud** in the heating and cooling industry, this technology is the same proven design used on ovens and stoves. Our patented heat exchanger is quick and easy to clean—when needed—by your local independent Ruud contractor. And a clean furnace is a long-running furnace.

Less Sound & More Comfort

This the result of a **2 tighter door seal** that helps eliminate whistling. We've also added **3 rubber grommets** on the motor mounts and a **4 twist-lock wire harness** in the blower shelf. The result is an impressively quiet furnace.

Simple Installation & Maintenance

These features benefit consumers too. This means savings on installation costs and faster, more cost-effective repairs during maintenance. The Ruud *Achiever Plus* Series Gas Furnace is also designed with **5 PlusOne**® Diagnostics—our industry-first 7-segment LED display, a feature that makes services calls quick and easy.

Ruud.com

YOUR LOCAL RUUD CONTRACTOR

¹Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency. ²For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local contractor or go to Ruud.com for a copy of the product warranty certificate. Conditional warranties must be registered through RegisterMyUnit.com.
